

Anti-Static Orange Peel Texture Vertical Vinyl Badge Holder with Reinforced Edges (1815-1100)

Specialist ID | Badge Holder | SKU 1815-1100

Part number	1815-1100
Brand	Specialist ID
Category	Badge Holder
Weight	0.3 oz
Material	Heavier vinyl than standard flexible badge holders
Color	Clear
Customizable	No
Country of origin	China

OVERVIEW

The 1815-1100 is a clear flexible vinyl vertical badge holder with an orange peel texture on the back panel. The textured surface reduces friction and static between the card face and the vinyl, preventing the card from sticking to the holder when you need to remove it. Standard flat vinyl holders can create static adhesion against smooth card surfaces, making cards difficult to pull out cleanly. The orange peel texture breaks that contact, allowing quick one-handed card removal.

KEY FEATURES

- **Orange Peel Anti-Static Texture:** Textured back panel reduces friction and static between card and vinyl. Cards slide out cleanly without sticking, even after extended wear.
- **Heavier Vinyl, Reinforced Edges:** Thicker construction than standard flexible badge holders. Reinforced slot hole resists tearing under repeated daily lanyard attachment.
- **Slot and Chain Holes:** Attaches to lanyards, badge reels, neck chains, and strap clips. Holds one CR80 card at 30 mil, clear vinyl front for full badge visibility.
- **Wide Application:** Used in schools, healthcare, and corporate access programs where badges are removed and reinserted daily.
