| Country of origin | China           |

## OVERVIEW

The 1840-5050 is a clear flexible vinyl vertical badge holder sized for proximity cards. Proximity cards are slightly thicker than standard CR80 credit card stock, and standard badge holders do not accommodate them properly. The 1840-5050 is built to the correct insert dimensions (2 1/4" x 3 5/8") to fit a prox card with a snug closure that keeps the card locked in and prevents it from sliding out when the holder is attached to a strap clip. The holder attaches via the slot hole at the top.

## KEY FEATURES

- **Sized for Proximity Cards:** Insert dimensions 2 1/4" x 3 5/8" accommodate the thicker profile of proximity access cards. Standard holders do not fit prox cards properly.
- **Lock-In Slot Closure:** Top-load design with snug closure keeps the card firmly in place during active wear. Card does not slide out when attached to a strap clip.
- **Use with Vinyl Strap Clip Only:** Designed for badge reels with a vinyl strap clip. Not compatible with bulldog clips or swivel hooks.
- **Also Fits Standard CR80 Cards:** Accepts standard credit card size badges and can hold multiple standard cards. Clear flexible vinyl front (1840-5050).
