

Clear Vinyl Anti-Static Vertical Proximity Badge Holder

1840-5061

Specialist ID | Badge Holder | SKU 1840-5061

Part number	1840-5061
Brand	Specialist ID
Category	Badge Holder
Insert size	2.50" x 3.75"
Outside dimensions	2.80" x 4.50"
Weight	0.4 oz
Color	Clear
Customizable	No
Country of origin	China

OVERVIEW

The 1840-5061 is a clear anti-static vinyl vertical badge holder for proximity cards, smart cards, and access credentials used in ESD-sensitive environments. The anti-static material dissipates static charge rather than allowing it to build up on the badge surface, making this holder appropriate for electronics manufacturing, biotech labs, cleanrooms, and any facility where a static discharge could damage sensitive equipment or components. Insert size is 2.50" x 3.75" (64 x 95mm), fitting standard CR80 credit card and driver's license sized credentials. Outer dimensions are 2.80" x 4.50" (71 x 114mm).

KEY FEATURES

- **Anti-Static Vinyl Construction:** Dissipates static charge to protect proximity cards, smart cards, and sensitive electronics in ESD-controlled environments.
- **0.040" Combined Thickness:** Equal front and back panels at 0.020" each provide balanced protection for proximity and smart cards.
- **Insert Dimensions:** Vertical top-load accepts inserts up to 2.50" x 3.75" (64 x 95mm). Outer dimensions 2.80" x 4.50" (71 x 114mm). Slot and chain holes for lanyard or reel attachment.
- **Best For:** Electronics manufacturing, semiconductor facilities, biotech labs, cleanrooms, and healthcare environments where standard vinyl holders are not ESD-safe.
