OVERVIEW

The 1840-6610 is a clear rigid polycarbonate horizontal badge holder with a key-operated locking end piece. It accepts standard credit-card-size inserts measuring 3.38" x 2.13" (86 x 54mm) in a horizontal side-load orientation. The outside holder dimension is 3.62" x 2.20" (92 x 56mm). The lock snaps into place using a guard key, physically securing the card inside and preventing unauthorized removal or card swapping between personnel.

KEY FEATURES

- **Key-Operated Lock:** The locking end piece physically secures the card inside the holder, preventing unauthorized removal or card swapping. Guard key P/N 1840-6615 is sold separately.
- **Polycarbonate Construction:** Rigid clear polycarbonate protects access cards, proximity cards, and photo IDs. Insert size 3.38" x 2.13" (86 x 54mm), outer dimensions 3.62" x 2.20" (92 x 56mm).
- **Side-Load Horizontal Orientation:** Card loads from the side. Standard slot attachment connects to any lanyard, badge reel, or neck chain.
- **Secure Facilities and Corporate Security:** Used by government agencies, healthcare organizations, financial institutions, and manufacturing sites where credential tampering prevention is required.
