	Category	Strap Clip
	Strap length	5-3/4"
	Weight	0.2 oz
	Color	Clear
	Customizable	No
	Minimum order	100
	Country of origin	China

OVERVIEW

The 2105-3250 is a clear vinyl strap clip with a 2-hole nickel-plated steel clip and a 5-3/4" (146 mm) strap. The extended strap length is designed for stacks of multiple bare cards where a standard shorter strap does not leave enough tail length after threading through to fold back securely through the metal clip. The clear vinyl strap threads through the slot holes on a stack of slot-punched cards, then loops back through the two-hole metal clip to hold them all together. The metal clip on the opposite end attaches to clothing, lanyard rings, or vest attachment points.

KEY FEATURES

- **Strap Length:** Extra-long 5-3/4" (146 mm) clear vinyl strap threads through standard slot holes and accommodates thick rigid holders and layered badge assemblies.
- **Metal Clip End:** 2-hole nickel-plated steel clip attaches to clothing, vest loops, and lanyard attachment points on the wearer's side.
- **Slot-Friendly Design:** Soft vinyl is gentler on the slot opening of rigid polycarbonate and ABS holders than metal clip hardware, extending holder life in high-rotation programs.
- **Best For:** Healthcare facilities, industrial badge programs, and volume credential programs requiring extra strap length for thick or layered rigid badge holders.
