OVERVIEW

This is a round retractable badge reel with a "no twist" cord, part number series 2120-305X. The strap end locks facing one direction, so the badge cannot spin around backward — the photo and name stay facing out all day. Snap the clear vinyl strap through the slot of a punched ID badge or badge holder, then wear the reel on a belt, waistband, pocket edge, or bag strap with the belt clip. The 34" (864 mm) nylon cord extends for door readers and badge scans, then retracts on its own, and the reel is rated for 100,000 pulls.
