Brand	Specialist ID
Category	Lanyard
Lanyard length	36"
Weight	varies by option - see options table
Colors	Black, Red
Customizable	No
Country of origin	China

OVERVIEW

These pre-printed "Safety First" lanyards have a unique glow in the dark imprint for extra visibility in dark places. The lanyard also has reflective material, making this the most visible in the dark lanyard that we carry. It has our breakaway feature, which allows the lanyard to unbuckle if it is overstressed, protecting the wearer. Simply snap it back together and the lanyard can continue to be worn as normal.

KEY FEATURES

- **Format:** Flat 5/8" (16 mm) reflective lanyard with a luminescent "Safety First" imprint that glows in the dark.
- **Length:** 36" (914 mm) cut length prior to assembly.
- **Breakaway:** Safety breakaway unbuckles if the lanyard is overstressed and snaps back together for continued use.
- **End Fitting:** Nickel-plated steel swivel hook that fits any standard slot punched ID badge or badge holder.
