Webbing width	5/8"
Lanyard length	36"
Weight	0.5 oz
Material	5/8" (16mm) flat polyester
Colors	Black, Blue, Red, Orange
Customizable	No
Country of origin	China

OVERVIEW

The 2135-25XX is a 5/8" (16mm) flat breakaway lanyard with a "Safety First" text imprint and light-reflective material construction. The lanyard is 36" (914mm) cut length prior to assembly and made from polyester with a reflective gray surface that returns light when illuminated. The nickel-plated steel swivel hook end fitting rotates freely and attaches to standard badge holder holes and slot-punched accessories. The reflective material is woven into the lanyard surface rather than printed on top, so it does not crack or delaminate over time.

KEY FEATURES

- **Width and Material:** 5/8" (16mm) flat polyester, 36" cut length, with a reflective gray surface that returns light when illuminated in low-light conditions.
- **Safety First Imprint:** Text woven into the lanyard surface rather than printed on top, resisting cracking and delamination through extended wear.
- **Swivel Hook and Breakaway:** Nickel-plated steel swivel hook rotates freely; breakaway connector releases under controlled pull force for active work environments.
- **4 Colors Available:** Black (2135-2525), Red (2135-2526), Blue (2135-2527), Orange (2135-2529).
