OVERVIEW

The 2135-350X is a 3/8" flat braid woven lanyard with a nickel-plated steel swivel hook and non-breakaway construction. At 36" total length, it positions ID badges and credentials at belly-button height for clear visibility. The flat woven texture is soft on the neck and shoulders while providing extra durability from the non-breakaway design, which holds without snapping under normal daily tension. Print shops, promotional product suppliers, schools, and event organizers are among our most frequent buyers.
