Part number	2137-3001 (+2 more - see options)
Brand	Specialist ID
Category	Lanyard
Weight	0.3 oz
Colors	Black, Royal Blue, Red
Customizable	No
Country of origin	China

OVERVIEW

The 2137-300X is a 3/8" flat breakaway lanyard with three independent safety release points positioned along the back, left, and right of the neck. Each clasp releases under minimal force. Because all three points are independent, the lanyard cannot be held taut from both ends. This is the critical difference from a single-breakaway lanyard, which can still be gripped from each side and used as a ligature or weapon.

KEY FEATURES

- **Three Independent Release Points:** Back, left, and right clasps each release independently, preventing the lanyard from being held taut from both ends as a ligature or weapon.
- **Designed for High-Risk Environments:** Used in psychiatric hospitals, behavioral health facilities, corrections, and security environments where a single breakaway is not sufficient protection.
- **Metal-Free and MRI Safe:** Wide no-twist plastic hook keeps slot-punched cards facing forward. Passes metal detectors and security checkpoints.
- **Available in 3 Colors:** Black (2137-3001), Royal Blue (2137-3002), Red (2137-3006).
