Country of origin	China

OVERVIEW

You can easily identify workers in your building with this purple "Volunteer" lanyard. The "Volunteer" imprint along the lanyard makes it easy to decipher the services of the workers employed. The lanyard material has a silky feel to it, and is 36" (914 mm) cut length prior to assembly. The breakaway feature, also referred to as "Safety Breakaway", enables the lanyard to snap apart if it comes under pressure, keeping the person wearing the lanyard from being pulled or choked if the lanyard is grabbed or snagged.

KEY FEATURES

- **Format:** Flat 5/8" (16 mm) purple lanyard with "Volunteer" imprinted along the length.
- **Length:** 36" (914 mm) cut length prior to assembly; hangs about half that length.
- **Attachment:** Swivel hook, the most popular attachment in the industry.
- **Safety:** Breakaway snaps apart under pressure and can usually be snapped right back together.
