OVERVIEW

The 2140-220X is an elastic wristband with a brass-finished S-hook, designed to keep keys and small accessories on the wrist for hands-free access during activity. The band stretches from approximately 5.5" to 9" to accommodate a range of wrist sizes. Construction uses a nylon and elastic blend for flexibility and repeated stretching without losing tension or shape. The brass S-hook at one end of the band attaches to key rings, carabiner clips, and small loop attachments.
