Part number	2410-2000
Brand	Specialist ID
Category	Travel Accessory
Weight	0.1 oz
Color	Clear
Customizable	No
Country of origin	China

OVERVIEW

The 2410-2000 is a 6" clear flexible plastic loop strap that attaches luggage tags, ID badge holders, and asset labels to any handle, loop, or frame without tools or adhesives. Thread one end through the slot hole on the tag or holder, loop it around the attachment point, and feed the tip through the notched end to lock. The self-locking loop cannot release on its own and the flexible plastic resists breaking under normal handling and transit stress. Manufacturing and fulfillment operations use these straps to attach serialized asset tags and badge holders to products at the point of production.

KEY FEATURES

- **Self-Locking Loop Design:** Thread through any slot hole and lock around any handle or attachment point. Cannot release on its own once locked.
- **Flexible and Durable:** 6" (152mm) clear flexible plastic. Bends without breaking under travel and handling conditions.
- **No Tools or Adhesives:** Reusable and does not damage bag handles or tag holes. Compatible with any slot-punched luggage tag or badge holder.
- **Used in Luggage, Equipment, and Credential Programs:** Standard loop strap for attaching laminated ID cards, luggage tags, and asset labels to bags and equipment.
