OVERVIEW

The 5735-2100 is a pressure-sensitive nickel-plated bulldog clip with a fitted square adhesive base. The clip measures 1" (25mm) wide with a pad of 3/4" x 3/4" (19 x 19mm). The adhesive base peels and sticks to any flat surface, bonding the clip to the back of a badge holder, name tag, or signage mount without mechanical fasteners. The embossed U-shape on the clip adds jaw grip strength to hold credentials securely without slipping.

KEY FEATURES

- **Dimensions:** 1" (25mm) nickel-plated bulldog clip with 3/4" x 3/4" (19 x 19mm) pressure-sensitive adhesive base for application to flat surfaces.
- **Adhesive Back:** Peel-and-stick base bonds the clip to badge holders, name tags, and flat surfaces without slot punching or mechanical fasteners.
- **Nickel-Plated Finish:** Corrosion-resistant with embossed U-shape for additional jaw grip strength when holding credentials against clothing.
- **Great For:** Employee name tags, visitor badges, product labels, and anywhere a clip needs to attach to a flat surface without punching a hole.
