OVERVIEW

The Magicard CK1 is the cleaning kit Magicard made for the Opera, Alto, and Tempo. Regular use removes dust and debris from the card path and printhead -- the two most common causes of streaks, faded output, and premature printhead failure. Magicard recommends cleaning after every ribbon change to maintain consistent print quality and extend the life of your printer. Use only genuine Magicard cleaning supplies in these printers; third-party kits may not fit the card path correctly and can cause damage rather than preventing it.
