OVERVIEW

Visitor badge log book containing self-expiring adhesive badges with built-in sign-in records. Each badge is a peel-and-stick label that displays a red "VOID" indicator within 24 hours of being applied, automatically signaling that visitor access has expired. The carbonless duplicate pages create a permanent record of each visitor's name, date, time, and host. Designed for schools, offices, healthcare facilities, and any environment requiring visitor tracking and automatic badge expiration without manual monitoring.
