Dimensions	0.125" x 0.5625"
Weight	60.2 oz
Customizable	No
Country of origin	Taiwan

OVERVIEW

If you need to punch a ton of badges, the table top heavy duty slot punch is a perfect choice for the job. The long handle provides great leverage, minimizing manual effort on your part, and allows for easy penetration of PVC cards up to 60 mil thick. With the built in adjustable guide, you can punch both horizontal or vertical ID cards and ensure that your hole is in the same spot for a consistent look and feel to each of your ID cards. If you are looking for JAM part number P-12 you will find that this item is the same.

KEY FEATURES

- **Format:** Heavy duty table top slot punch with a long handle for extra leverage.
- **Slot size:** 0.125" x 0.5625" (3 x 14 mm).
- **Capacity:** Punches PVC cards up to 60 mil thick (the thickness of two standard IDs/driver's licenses).
- **Adjustable guides:** Position horizontal or vertical ID cards so the hole lands in the same spot every time.
