| **Weight** | 4 lb |
| **Customizable** | No |

## OVERVIEW

This is a one-piece thermal-printable self-expiring visitor badge, part number T2011, 1-7/8" x 2-7/8", with a 1-day expiration. There is nothing to assemble. When time is up the badge visibly expires, so an uncollected pass cannot be reused the next day. How it works Print the visitor name and your layout from a direct thermal printer.

## KEY FEATURES

- **Format:** 1-7/8" x 2-7/8" direct thermal one-piece ONEstep badge, 500 per box, fan-folded. Prints on any direct thermal printer that accepts this media size and does not require proprietary consumables. Printers that only run their own chipped or coded labels, such as the Dymo 550 series, will not accept this stock.
- **Expiration:** An expired indicator appears overnight, about 10 to 15 hours after activation; the change cannot be reversed.
- **Pairs with:** A complete badge that needs nothing else: print, peel, press together, and issue, with no back part, hardware, or software.
- **Attachment:** Adhesive sticks to clothing. Do not apply to leather, silk, suede, or vinyl.
