| **Dimensions** | 2-5/16" x 2-13/16" |
| **Weight** | 0 lb |
| **Customizable** | No |

## OVERVIEW

The TEMPbadge T2030 QuickTab is a one-piece half-day self-expiring visitor badge, 2 5/16 x 2 13/16 inches, that prints on direct thermal printers (part number T2030). How it works Print the visitor's information on a direct thermal printer, fold the QuickTab tab to activate the timer, and stick the badge on. The chemical timer runs for about 4-6 hours, then a visible expiration pattern appears so the badge cannot be reused later in the day or the next day. What you need Complete badge - nothing else needed.

## KEY FEATURES

- **Format:** 2-5/16" x 2-13/16" one-piece QuickTab badge with the front, timer, and adhesive in a single part; prints with no ink or ribbon. Prints on any direct thermal printer that accepts this media size and does not require proprietary consumables. Printers that only run their own chipped or coded labels, such as the Dymo 550 series, will not accept this stock.
- **Expiration:** Fold the tab to activate; the badge visibly expires in about 4-6 hours.
- **Pairs with:** Nothing else needed; there is no separate back to apply.
- **Attachment:** Adhesive sticks directly to clothing; no clip or lanyard needed.
