Dimensions	3" x 4"
Weight	0 lb
Customizable	No

OVERVIEW

The Genuine TEMPbadge T3983A is a 3 x 4 inch thermal-printable slotted clip-on visitor badge with a token expiration area, sold in a box of 1,000. How it works Print the visitor name or other information on the badge with a direct thermal printer, then apply a TIMEtoken expiring label to the token area to start the timer. The label shows a red pattern at expiration, so an expired badge is obvious at a glance. TIMEtoken labels are available in half-day (about 4-6 hours), 1-day (overnight, about 10-15 hours), and 7-day (about 4-7 days) versions.

KEY FEATURES

- **Format:** 3" x 4" direct thermal printable slotted visitor badge, box of 1,000. Prints on any direct thermal printer that accepts this media size and does not require proprietary consumables. Printers that only run their own chipped or coded labels, such as the Dymo 550 series, will not accept this stock.
- **Expiration:** Token area accepts a TIMEtoken expiring label; a red pattern appears to show the badge has expired.
- **Pairs with:** TIMEtoken labels in half-day (about 4-6 hours), 1-day (about 10-15 hours), and 7-day (about 4-7 days) versions.
- **Attachment:** Slotted top works with standard badge clips, strap clips, and lanyards.
