OVERVIEW

The Genuine TEMPbadge T6057A is a 15/16 x 1 15/16 inch adhesive TIMEtoken token back, sold in a box of 1,000. It is the base half of the smallest TIMEtoken badge, for sites that want an expiring indicator and nothing more. How it works Stick the token back on the visitor, or on a reusable visitor pass, then apply a TIMEtoken expiring label on top of it. Applying the label starts the timer.
