| **Customizable** | No |

## OVERVIEW

The Genuine TEMPbadge T6117 is a 15/16 x 1 15/16 inch self-expiring TIMEtoken label preprinted CONTRACTOR, with a 1-day timer, sold in a box of 1,000. How it works Peel the TIMEtoken label from its liner and apply it to the token area of a TIMEtoken badge back. Application starts the 1-day chemical timer, and overnight, about 10-15 hours later, the expiration pattern printed on the back shows through the label so anyone can see the badge is no longer valid. What you need This label is one half of a two-part system.

## KEY FEATURES

- **Format:** 15/16" x 1-15/16" adhesive TIMEtoken label preprinted CONTRACTOR, box of 1,000.
- **Expiration:** The 1-day chemical timer starts at application and the expired pattern develops overnight, about 10-15 hours.
- **Pairs with:** TIMEtoken badge backs T4102A, T3983A, T5595A and T6057A; a back is required because the label is one half of a two-part system.
- **Attachment:** Self-adhesive label peels from its liner and applies to the token area of the badge back.
