Category	Visitor Badge
Dimensions	15/16" x 1-15/16"
Weight	0 lb
Customizable	No

OVERVIEW

The Genuine TEMPbadge T6218 is a 15/16 x 1 15/16 inch self-expiring TIMEtoken label preprinted VALID THRU with a write-in date line, with a 7-day timer, sold in a box of 1,000. How it works Write the thru date on the label with any standard pen, then peel it from its liner and apply it to the token area of a TIMEtoken badge back. Application starts the 7-day chemical timer, and in about 4-7 days the expiration pattern printed on the back shows through the label so anyone can see the badge is no longer valid. What you need This label is one half of a two-part system.

KEY FEATURES

- **Format:** 15/16" x 1-15/16" adhesive TIMEtoken label preprinted VALID THRU with a write-in date line, box of 1,000. Write the thru date with any standard pen; no printer or software needed.
- **Expiration:** The 7-day chemical timer starts at application and the expired pattern develops in about 4-7 days.
- **Pairs with:** TIMEtoken badge backs T4102A, T3983A, T5595A and T6057A; a back is required because the label is one half of a two-part system.
- **Attachment:** Self-adhesive label peels from its liner and applies to the token area of the badge back.
