OVERVIEW

The Genuine TEMPbadge T6222 is a 7/8 inch round self-expiring TIMEspot indicator with a red V for visitors and a 7-day timer, sold in a box of 1,000. How it works Apply the TIMEspot dot to the round spot area of a TIMEspot badge back. Application starts the 7-day chemical timer, and in about 4-7 days the red line pattern on the back shows through the dot to signal that the badge has expired. What you need This indicator is one half of a two-part system.

KEY FEATURES

- **Format:** 7/8" round adhesive TIMEspot indicator with a red V, box of 1,000.
- **Expiration:** The 7-day chemical timer starts at application and the pattern develops in about 4-7 days.
- **Pairs with:** TIMEspot badge backs T4103A, T5812A, 05587 and T6059A; a back is required because the indicator is one half of a two-part system.
- **Attachment:** Adhesive dot applies to the spot area of the badge back.
