Dimensions	15/16" x 1-15/16"
Weight	0 lb
Customizable	No

OVERVIEW

The Genuine TEMPbadge T6418 is a 15/16 x 1 15/16 inch (about 1 x 2 inch) self-expiring TIMEtoken label preprinted VALID THIS DATE ONLY with a write-in date line, with a half-day timer, sold in a box of 1,000. How it works Write the date on the line, then peel the TIMEtoken label from its liner and apply it to the token area of a TIMEtoken badge back. Application starts the half-day chemical timer, and in about 4-6 hours the expiration pattern printed on the back shows through the label so anyone can see the badge is no longer valid. What you need This label is one half of a two-part system.

KEY FEATURES

- **Format:** 15/16" x 1-15/16" adhesive TIMEtoken label preprinted VALID THIS DATE ONLY with a write-in date line, box of 1,000. Write the date with any standard pen; no printer or software needed.
- **Expiration:** The half-day chemical timer starts at application and the expired pattern develops in about 4-6 hours.
- **Pairs with:** TIMEtoken badge backs T4102A, T3983A, T5595A and T6057A; a back is required because the label is one half of a two-part system.
- **Attachment:** Self-adhesive label peels from its liner and applies to the token area of the badge back.
