OVERVIEW

The Genuine TEMPbadge T8050 ExpireBand is a direct thermal printable self-expiring wristband, 1 x 9.75 inches, sold in a box of 400 (part number T8050). How it works Print the visitor's information on the wristband with a direct thermal printer, then fasten the band around the wrist. The band activates when it is applied, and color develops over about one day, overnight, about 10 to 15 hours, until a red VOID pattern shows along the band. ExpireBand is intended for indoor, climate-controlled events.
